

Introduction to Building Information Modeling

- Exporting 3D DWF
- Mark up in design review
- Paperless communication process

Course Duration:

7 Hours / 1 Day

1. Building Information Modeling Basic

- Building Information Modeling
- Building Life Cycle management
- Parametric model
- Bidirectional Associative
- Revit & BIM

2. Revit Architecture Basics

- Exploring the User Interface
- Working with Revit Elements and Families

3. Viewing the Building Model

- Managing Views
- Controlling Object Visibility
- Working with Section and Elevation Views
- Creating and Modifying 3D Views

4. Presenting Revit Model

- Working with Drawing Sheets
- Working with Section and Elevation Views
- Creating Renderings
- Using Walkthroughs
- Using Sun and Shadow Settings

5. Using DWF as a communication tool

- Exporting 2D DWF
